A product **GUITEL
HERVIEU**

NetSmart Chariot Pro

Its design, versatility and ergonomics allow it to be integrated into the most demanding environments of use in terms of image.

DESIGN & MANUFACTURING
FRENCH

Whether it is for a shopping center, a cultural venue, an airport, a hotel or a head office, the design of **NetSmart Chariot Pro** is equal to your environment.

" Your brand image is your signature! "

Due to its design, **NetSmart Chariot Pro** can be personalized according to the environment in which it will be used.

The equipment, cleaning products or waste collected are not visible, the brooms and wringing equipment are easily graspable.

" The prestige partner for your cleaning "

NetSmart Chariot Pro

Adapts to your area of use

- Shopping centers
- Public authorities
- Museums
- Offices
- Hotels
- Airports

A personalized experience

NetSmart Chariot Pro is offered in 4 versions, each customizable with different finishes, the structure of the trolley is aluminium lending lightness and solidity, fitted with 5 highly manoeuvrable rubber wheels making it easy for cleaning staff to move and ensuring comfortable manoeuvring.

A high level of **ERGONOMICS AND MANOEUVRABILITY**

Solid and light structure

The structure of the **NetSmart Chariot Pro** is made of 100% aluminium, ensuring the whole unit is light and solid. This results in less effort for the user when moving around.

Easier to move

With 5 wheels, 4 of which swivel and one fixed, the **NetSmart Chariot Pro** moves easily in all directions and can effortlessly make a half turn on the spot or be moved on sloping ground. The wheels are covered with a tyre specially designed for its noise-reducing and non-staining characteristics, that suits any type of floor.

Ease of use

The wide handle designed for optimal grip and ergonomics ensures perfect comfort when manoeuvring and moving the **NetSmart Chariot Pro**.

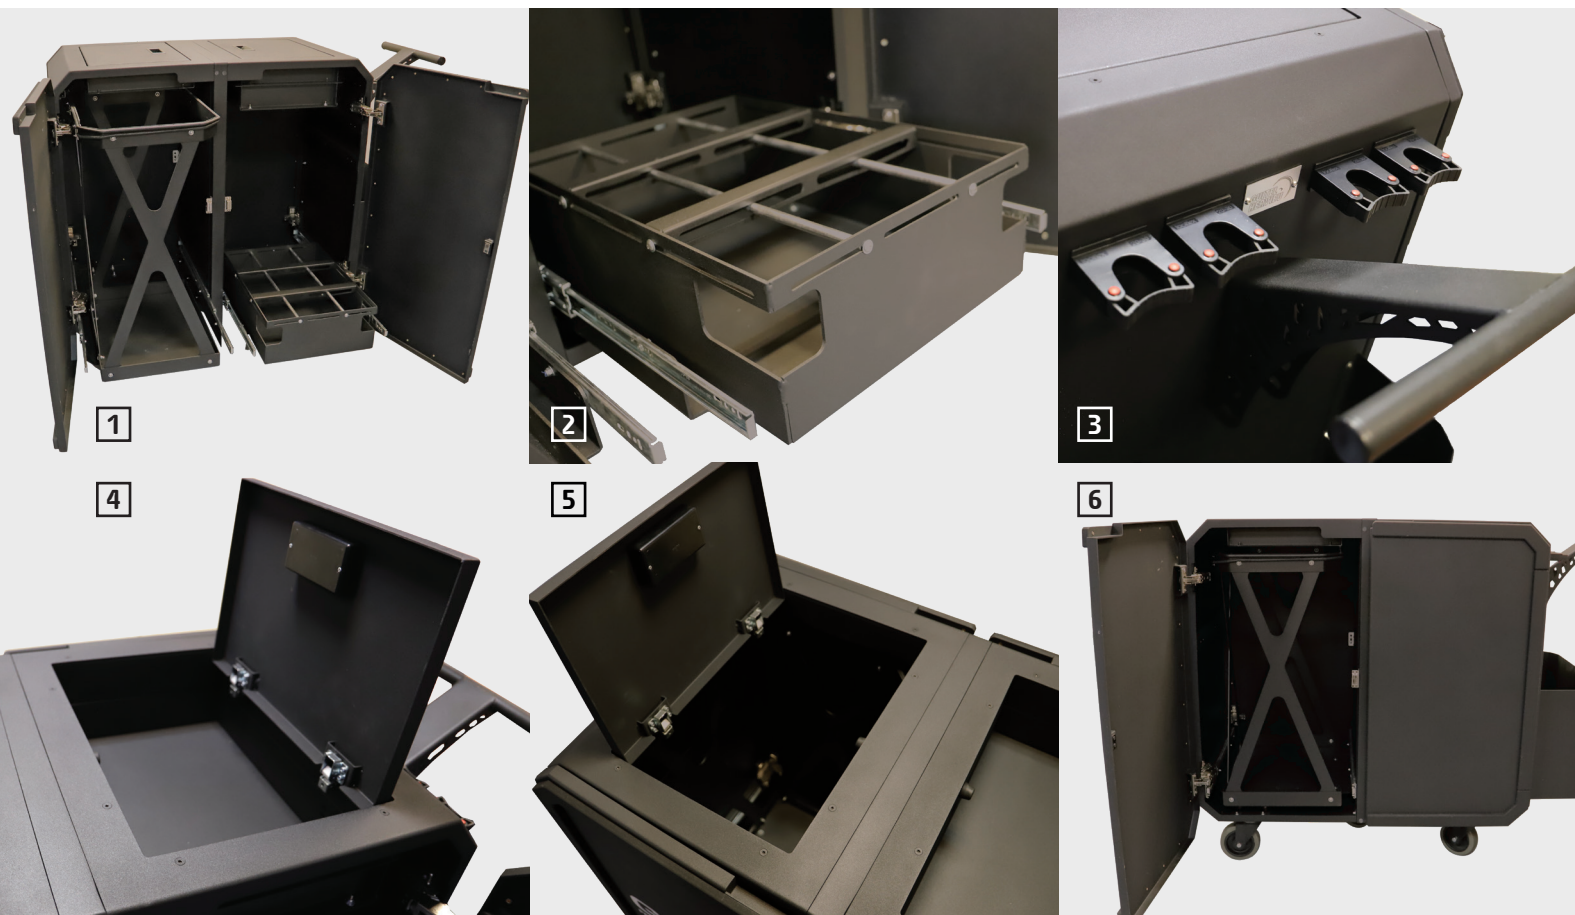

Resistance

Elegant protective covers provide good protection for the trolley.

PROFESSIONAL EQUIPMENT

Top of the range

01/ Full accessibility

Full opening thanks to its two doors, allowing access and handling of cleaning materials and rubbish bags in a comfortable and safe way.

02/ Versatile drawers

The fully adjustable storage drawers, held by heavy-duty ball bearing slides, ensure that cleaning products remain completely immobile when the trolley is moved and the drawers opened.

03/ Quick release system

The brooms are easily attached by a quick release system. Once fixed, the brooms are integrated into a part of the frame which has a double function as both a broom cover and a drip tray.

04/ Practical compartment space

Access to the compartment space is via a recessed hatch at the top.

05-06/ Discreet and functional rubbish bag holder

Fully concealed, the rubbish bag has a double access. The first access through the door allows easy installation and unloading thanks to the heavy load slides.

The second access through the hatch in the upper part of the **NetSmart Chariot Pro** offers comfortable opening for filling the bag. The rubbish bag rests on a retention tray ensuring a perfect seal in the event of a leak.
